Dear President: Barak Obama.

Dear Law makers at Congress and Senate;

Subject: Turkey and Iran attack on Kurds civilians

During the past decades the Kurdish people as an ethnic group, have become the subject of oppression by the countries like Iraq, Iran, Turkey and Syria. Kurds fate and destiny have been jeopardized as the result of dismissing the Sevres Treaty and adopting the Lausanne Treaty in which the Kurdish people's lands has been divided between the merging states and governments in the post Ottoman Empire Collapse, without any regard and contest of the Kurds. Unfortunately, None of the following countries Turkey, Iran, Iraq and Syria are

capable of protecting human rights or resolving the Kurds issue peacefully and democratically. meanwhile, the Kurds issue is an internal with regional perspective and resolving such issue peacefully will have multiple benefits for these countries and Kurds people with the contribution the world peace also. These countries have continually been choosing military options instead of the logic of dialogue and peace in regards of facing the Kurds issue; to the degree of committing crimes of genocide, gas attack, mass murder and crimes against humanity. International community has the moral obligation to prevent such crimes but they chose to be silence which resulted the lost of countless Kurds civilians and the reputation of International Community has also been damaged also. As of today Turkey and Iran started the campaign of shield bombardment and air strikes of the Kurdistan borders under the name of fighting PKK and Pajak. At the result the more than 400 villages have been evacuated and civilians lives have been lost along with burning homes and polluting the Kurdistan environment. Until this moment the Turkish air planes have attacked Kurdistan borders more than 132 times since August 17, 2011 and more than 11 civilians are dead.

We are asking United States to not stand silent, or support such violence act of Turkey and Iran under the justification of the present of PKK in that areas. In the past decades the International Community and Great Powers have explicitly silenced against the use of Chemical Gas and Mass Murder by the previous Iraqi Regime under the name of internal issue and war between Iran and Iraq. There is no justification or reason for silence now while the Middle East is undergoing a massive transformation of altering dictatorships and emerging democratic process. There is no doubt to ask what will PKK's fighter's do in the mountains if democracy rules in that region. If there is a logic of dialogue, why do the Kurds have to carry guns and fight for their rights in mountains rather than in Parliament and civil institutions?

Kurd as a nation needs to be respected and its rights be protected by the International rules and norms. Their rights should be recognized as the charter of United Nations recognized universal right of people and nations to live in peace and harmony. Any attack and violations of these rights would be a direct violations of International Community norms and rules, these organizations reputations will be questioned by the Kurdish community, and its people.
